OBJECTIVE

Motivated Computer Science graduate with a solid foundation in HTML, CSS, JavaScript, ReactJS, SQLite, and experience with cloud platforms such as AWS and Azure. Passionate about building responsive, user-friendly web applications. Eager to contribute to innovative digital solutions and support business growth through modern, user-focused development.

Work Experience

Web Development Intern ⤴
UPTOSKILLS | January 2025 - April 2025

- Completed a comprehensive certification internship focused on frontend development..
- Gained hands-on experience in building responsive web applications using HTML, CSS, JavaScript, and ReactJS.
- Strengthened skills in real-world project development and collaborative coding practices.

Multicloud Intern (AWS/Azure) ⤴
V CUBE Software Solutions Pvt Ltd.

- Completed certification internship with hands-on experience in AWS and Azure cloud platforms.
- Worked with key AWS services (EC2, S3, IAM) and Azure services (Virtual Machines, Load Balancers, Storage Account, Terraform, CI/CD Pipelines).
- Gained experience in deploying, managing, and monitoring cloud resources and Developed skills in cloud architecture, security best practices, and cost optimization.

EDUCATION

Rajiv Gandhi University of Knowledge Technologies, Nuzvid   June 2019 – May 2023
*B.Tech - Computer Science Engineering - **8.4***   *Krishna, India*

TECHNICAL SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript, ReactJS
Backend: Python, Node.js, Express.js, REST APIs
Developer Tools: Git, GitHub
Software Tools: MicroSoft Excel
Database: SQLite

PROJECTS

Weather Forecast App ⤴ | HTML, CSS, JavaScript, OpenWeatherMap API

- Developed a responsive web application that provides real-time weather updates using the OpenWeatherMap API.
- Implemented dynamic data fetching to display current temperature, humidity, wind speed, and weather conditions based on user-input city..
- Integrated user-friendly search functionality and error handling for invalid inputs or unavailable locations.
- Designed an intuitive, mobile-friendly UI with modern CSS for improved user experience.
- Applied asynchronous JavaScript (fetch API) to handle API calls and update DOM elements in real time.

Food Delivery App ⤴ | ReactJS, NodeJS, ExpressJS, MongoDB

- Created a dynamic responsive food delivery website that showcases a variety of food items, allowing customers to browse, select and place orders seamlessly.

- executed interactive user interfaces for efficient order placement and payment gateways to ensure a smooth user experience.

- Designed and built a scalable backend architecture using Node.js and Express.js, enabling efficient handling of high user traffic and simultaneous order requests.

- Integrated MongoDB for flexible data modeling, supporting dynamic menu updates, user preferences, and real-time availability of dishes from multiple restaurants.

CERTIFICATIONS

- HTML, CSS - Geekster
- Python - Infosys Springboard
- MS Excel - Great Learning
- SQL - Geekster
- Git, GitHub - Geekster
- JavaScript - Geekster
